ACTA MECHANICA

Vol. 150, 2001

Contents

Original Papers

Blokhin, A. M., Trakhinin, Yu. L.: On stability of shock waves in a compressible viscous heat conducting gas 267–275

Charalambopoulos, A., Dassios, G., Fotiadis, D. I., Massalas, C. V.: Scattering of a point generated field by a multilayered spheroid 107–119

Dej, J.: On the low frequency linear instability of the Blasius flow 263–266

Ganesan, P., Loganathan, P.: Effects of mass transfer and flow past a moving vertical cylinder with constant heat flux 179–190

Harder, J.: FEM-simulation of the hardening behavior of FCC single crystals 197–217

Lan, S. L., Sun, M.: Aerodynamic interactions of two airfoils in unsteady motion . . . 39–51

Li, H., Liu, Z., Lin, Q.: Spherical-symmetric steady-state response of fluid-filled laminate piezoelectric spherical shell under external excitation 53–66

Ma, L.-F., Chen, Y.-H., Liu, C.-S.: On the relation between the *M*-integral and the change of the total potential energy in damaged brittle solids 79–85

Massoudi, M., Phuoc, T. X.: Fully developed flow of a modified second grade fluid with temperature dependent viscosity 23–37

Murty, Y. N.: Effect of throughflow and magnetic field on Bénard convection in micropolar fluids 11–21

Othman, M. I. A., Ezzat, M. A.: Electromagneto-hydrodynamic instability in a horizontal viscoelastic fluid layer with one relaxation time 1–9

Rossikhin, Yu. A., Shitikova, M. V.: Nonstationary Rayleigh waves on the thermally-insulated surfaces of some thermoelastic bodies of revolution 87–105

Samaranyake, G., Samaranyake, S., Bajaj, A. K.: Non-resonant and resonant chaotic dynamics in externally excited cyclic systems 139–160

Sathyakrishna, M., Roy, S., Nath, G.: Unsteady two-dimensional and axisymmetric MHD boundary-layer flows 67–77

Shu, X., Soldatos, K. P.: An accurate stress analysis model for angle-ply laminates with weakly bonded layers 161–178

Speziale†, C. G.: On the coupled heat equation of linear thermoelasticity 121–126

Theocaris, P. S., Sokolis, D. P.: Spectral decomposition of anisotropic elasticity . . . 237–261

Zheng, Q. S., Chen, T.: New perspective on Poisson's ratios of elastic solids 191–195

Zhu, Z. Q., Lu, X. B., Li, J.: A study of domain decomposition and parallel computation 219–235

Notes

Fetecău, C., Fetecău, C.: Unsteady Couette flows of second grade fluids in heated cylindrical domains 127–134

Fetecău, C., Zierep, J.: On a class of exact solutions of the equations of motion of a second grade fluid 135–138

Klonowska-Prosnak, M. E.: On force and moment acting in creeping flow on a circular cylinder rotating in presence of translating plane boundary 277–289
